

SUSTAN AP is an Acrylic Co Polymer Syntan For Retanning .

Properties

Chemical Composition	:	---
Appearance	:	Colourless Transparent to Slightly coloured Liquid.
pH(10% Solution)	:	6.30 – 6.70
Charge	:	Anionic

Features

- **SUSTAN AP** imparts uniform filling effect with round handle and leaves the leather with fine smooth grain. **SUSTAN AP** is highly suitable for light fast and heat resistant leather. Leather with high intrinsic softness without risk of loose grain can be obtained by using **SUSTAN AP** in retanning or fatliquoring stage.
- **SUSTAN AP** does not affect the hydrophobic properties and can therefore also be used in re-tanning of water proof leather. with excellent fullness and tightness even at a higher dosage. **SUSTAN AP** does not precipitate if used above pH 4. The ideal pH for the use of **SUSTAN AP** is between 6 to 7. **SUSTAN AP** when used in combination with other phenolic syntans imparts good fullness and increases the cutting value of the leathers.

Application

Full Chrome Shoe Upper – 2.0 – 4.0 %

Chrome Free Shoe Upper - 2.0 – 4.0 %

Storage / Shelf Life

Under dry and cool storage conditions, the product does not show any problems and has a shelf life of 6 Months.

Packaging

120 Kgs Can
